## File Folder Game

This file is intended for personal or **one classroom use only**. Please do not make copies for others; instead, point them to my [blog](#) or [TPT store](#) so they may download it for themselves. Thank you! PLEASE Leave some feedback too (you get tpt credits to buy more goodies!).

### How to get TPT credit to use on future purchases:

- Please go to your **My Purchases** page (you may need to Login). Beside each purchase you'll see a **Provide Feedback** button. Simply click it and you will be taken to a page where you can give a quick rating and Leave a short comment for the product. Each time you give feedback, TPT gives you feedback credits that you use to Lower the cost of your future purchases. I value your feedback greatly as it helps me determine which products are most valuable for your classroom so I can create more for you. 😊

Students match quantities 1-10 to the numeral or match numeral to numeral. Glue the numeral stars into a file folder. Print the stars on cardstock and laminate. Have students match the quantities or numerals.
